## SPIRIT OF ROTARY

The spirit of Rotary is in the very essence of its soul. It is invisible, intangible, indefinable; but it is the most real thing about Rotary. It changes casual contacts into growing friendships; transforms dull duties into inspiring privileges. It sets us free from the bondage of prejudice and bigotry, and binds us all together in the ties of understanding and brotherhood.

This spirit of Rotary is like the gentle rain from heaven. It cleans away selfishness, melts down the barriers that separate men, dissolves discord into harmonies, changes competition into cooperation, reveals the beauty of life and the ingent nobilites of every man.

*Set a brisk pace for service*

## Club service, and beyond

"Did you ever stop to think what Rotary is doing for you as a member? Do you realize that it has helped you become acquainted with some of the finest people you have ever met? It has helped you to meet the other fellow with a smile and better understanding. Rotary is doing a lot for you. What are you doing for Rotary?"

*—from a club bulletin*

## Did you know?

In 1917 R.I. President Arch Klumph proposed the establishment of an endowment fund—the forerunner of The Rotary Foundation. The fund received its first contribution in 1918—US\$26.50—from the Rotary Club of Kansas City, Missouri, U.S.A. By 1990, contributions totaled more than US\$554 million. Moreover, Foundation grants have enabled some 21,000 scholars to grow in knowledge and promote world understanding; more than 278 million children to be immunized against polio; and countless people to enjoy safe drinking water, accessible health care and schools, and improved nutrition.

## FRANKFORT ROTARY BOARD MEETING

There will be a Board meeting on Monday, January 13th at 5:00 p.m. at the Chamber of Commerce Board Room.

## THIS WEEK'S PROGRAM

Nell Cox, Hollywood Director/Film-Maker and Frankfort native, was the guest speaker of the Frankfort Rotary Club on January 7, 1992.

Nell pursued her filmmaking career by completing a Master's Degree in Film while living in Paris, France. Her first Directorial Job was an episode of the Walton's.. Nell explained the difference between directing a one hour television program and directing a theatrical feature. Filming a one hour television show requires seven days of preparation and seven days to film. Filming a movie requires even more time -- eight weeks or more to prepare, work with the actors, film and edit. When Nell first began her career fewer than 1/10 of 1% of directors were female. Today 7% of the movie directors are female.

Films are much more expensive to make these days with the average cost being \$25-30 million. Why do movies cost this much? Today we have a poor economy, million dollar actor's salary, plus the studio takes their cut. Then you have the screenwriters who do rewrites at \$100,000 a week and don't forget theft and other costs that we the average moviegoer do not even think about! That's why it costs \$6.00 for a Movie ticket!

We really enjoyed having Nell as our guest. See you soon at the Oscars!

## NEXT WEEK'S PROGRAM

Next week's speaker will be fellow Rotarian Jack Owens.

## Hear "Rotary in an Hour"

An informative new audio-cassette narrates the story of Rotary International in approximately 60 minutes. Produced with professional broadcasters in a lively, conversational style, "Rotary in an Hour" (CD4-018-EN) is designed especially for new and prospective Rotarians to give an overview of Rotary and the many ways it serves others.

A good "refresher" for experienced Rotarians as well, the tape takes an incisive look at the history, philosophy, operations, and programs of the world's premier service organization. Through it, listeners will travel the Four Avenues of Service--and emerge with a greater knowledge of how, individually and as members of their clubs, they can help people build better lives. The tape, presently in English only, is available from the world headquarters and priced at US\$6.00.

### WELCOME TO ROTARY

We welcome the two newest members of our club, D. Howard Ross and William Wilson.

Howard was introduced by Leroy Smith. His classification will be Universities-Administrations.

William was introduced by Denis King. His classification will be Automobiles-Service Stations.

We look forward to sharing Rotary fellowship and service with Howard and William.

### THIS WEEK'S PROGRAM

Rotary's own Jack Owens, a man of many and diverse careers, talked about his experiences in the Japanese Business world. Jack noted that the Japanese are great facilitators and innovators and will take a product or a process and improve upon it until the outcome is a superior product.

As a quality control engineer for General Electric in Japan, Jack said that the Japanese quality control is one of the reasons for their ability to produce superior products. He expressed concern over the recent announcement by American automakers that we will begin selling American cars in Japan. Owens said that the logistics of Japanese streets, parking spaces and parking garages do not allow for large American made cars. American automakers do not advertise in Japan and have not made changes in American cars to fit the Japanese driver, as the Japanese have done for the American driver. Jack said that, rather than forcing our product on them, negotiations are needed to enhance what is a very low sales potential in Japan - the American car.

### DON'T FORGET ! ! !

Next week's meeting will be held at the old Francona's Restaurant, across from the Holiday Inn Capital Plaza.

THIS WEEK'S PROGRAM

Matt Cave, Jimmy Quarles, Cindy Luscher, Nicole Lee and Jason Howard talked about SPOKE. Former District Governor Len Shirrell stated that in the 60's the Lexington Rotary Club had a Saturday program to tell young people about economic education. In 1980 the program was incorporated and involved 600 high school students. The VOTREK Conference was held on Friday and the SPOKE Conference was on Saturday in Madisonville. Students may participate in different vocational areas such as medicine, science, engineering, law and accounting. The first student speaker was Matt Cave from Western Hills, he wants to go into engineering. He toured high tech and low tech factories. The second speaker was Cindy Luscher who is Vice-President of her Interact Club at Frankfort High School. She chose medicine and toured the Trover Clinic where she observed hearing and blood testing. She then went to the Regional Medical Center and saw x-rays & catscans. She saw surgery on video in an operating room. Cindy then went to the Health Occupational School where they train Medical Technicians. Finally, Jason Howard of Franklin County talked briefly about the program at SPOKE. He heard the mayor of Madisonville talk about things they can do for their home towns.

NEXT WEEK'S PROGRAM

Next week's speaker will be Garry Burry, GSE Leader from the Louisville East Rotary Club.
