Next Week's Meeting...

Louis Allegra - "Outsourcing: Friend or Foe of American Manufacturing?"

The pros and cons of outsourcing to manufacturing facilities outside the United States will be explored. The view we get from the daily newspapers may not reflect the true impact on our economy. In fact, outsourcing jobs may be the wrong issue to debate. If the 1900s were The

American Century, who will lay claim to the twenty-first century?

Louis Allegra is President of Allegra Management Consulting, Inc. Lou's experience in business and not-for-profit environments spans four decades. He has held senior executive positions in businesses, both public and private, ranging from \$30 million to \$5 billion in sales. He has had P&L responsibility for three different manufacturers of automotive components and materials. He has been successful in both American and Japanese business environments, and has trav-

eled extensively in North America, Europe and Asia.

Throughout his career, Lou has demonstrated innovative leadership in a variety of disciplines: sales, marketing, new product development, manufacturing, purchasing, materials management, information services, accounting, human resources, safety, environmental and health. He has challenged and inspired managers and teams to achieve seemingly unachievable goals.

Lou holds a B.S. in Metallurgy and Materials Science from Lehigh University in Bethlehem, Pennsylvania. His extended education includes senior management courses from Duke University, Harvard University, MIT, and the University of Michigan. Lou has published papers, chaired conferences and given invited speeches. He holds several international patents. Lou has been recognized for his professional and community service. He chairs groups of senior executives as part of TEC, a global network of CEO's. He serves on the Board of Directors of the United Way of Franklin County, Frankfort Habilitation and the Japan/America Society of Kentucky. Lou is also a member of the Society of Automotive Engineers, ASM International, Commerce Lexington, and the Frankfort Area Chamber of Commerce.

This Week's Speaker...

The speaker for the day was Carmen Inman, the Executive Director of the Frankfort Area Chamber of Commerce. She stated that the greatest accomplishment of her lifetime was being a mother. It has taught her to think on her feet, stand up for what she believes and respect for her role in life. These qualities have prepared her for your present job. The Chamber was founded in 1947 and Frank Sower is credited for this. The Chamber is supported by its volunteers and membership. She discussed the goals of the Chamber for 2005, which includes the marketing and promotion of businesses. John Sheedy, the manager of the Frankfort Country Club, has been appointed Vice President of Public Relations. The other goals are to streamline the Chamber functions, improve communications through the Internet etc., inform the members about important legislation, and conduct business meetings to allow members to take advantage of the resources of the Chamber. Other programs of the Chamber include mentoring, job shadowing, the Farm/City Banquet and other activities, and Rotarians are encouraged to tour the vocational school.

Thank you Carmen for an interesting update of the activities of the Chamber.

Next Week's Meeting...

Jake Colson is the Sports Director at the Frankfort YMCA. He's been with the YMCA for 5 years and is a native from Columbus, Georgia where he was born and raised by his mother Chelzie and father Jack. He has an older sister Katie. Jake went to Kentucky Wesleyan College in

Owensboro, where he played football and became a four time All-American.

While he attended college, he worked at the Owensboro Family YMCA as a camp and child care counselor, sport coordinator, and a building supervisor. He became very active in the community doing various volunteer work (example: "I Love to Read Day," Special Olympic Volunteer, Toys for Tots worker).

Jake graduated in December 2002 with a Bachelors Degree in Fitness and Sports Management with a minor in Communications. He accepted his first Director position in February 2003 at the Edwardsville YMCA in Edwardsville, Illinois as the Recreational Sports Director and Teen Director.

While in college, Jake met his wonderful and loving wife, Jennifer. They have three children: Chance (8), Madilyn (15 months) and a brand new addition Katie, born on Christmas Eve 2004.

During his career at Edwardsville YMCA, Jake and his wife decided they would like to move closer to her family. In March of 2004, he became the new Sports Director for the Frankfort YMCA. Through the YMCA Soccer program, Jake met Associate Minister Jon Sutphin of Capital City Christian Church who invited his family to attend a Sunday Service. They are now active members of that church. Jake says, "This is just one small example of how a YMCA program can impact an individual's life."

As the Sports Director, Jake is looking to take the Sports Department to the next level to help build strong kids, strong families, and strong communities.

Jake says, "The motto in the Sports Department is that "Everybody Plays, Everybody Wins!"

This Week's Speaker...

The speaker for the day was Louis Allegra, a Management Consultant. Formerly with Topy, Louis spoke about manufacturing and its importance to the American economy. About 10% of the workforce is in manufacturing but the average wage of a worker is \$54,000 a year. 84% of these workers have health insurance, and manufacturing pays 30% of the corporate taxes. \$1 of manufacturing creates \$1.43 in demand for goods and services. He commented on whether outsourcing or off-shoring was a good or bad thing and it all depends on one's perspective. Most workers found work elsewhere, since the unemployment rate stays about the same, and outsourcing enables workers to move on to obtain higher skills. The purchasing power of the American consumer is enhanced through outsourcing, since goods are cheaper. However, the real threat is from China today. It is about the same geographic size as the United States but has four times the population. The per-capita income is only \$1000 per year and about one-half of the workers are in agriculture today. 69% of the population has safe drinking water. On the other hand, China is now manufacturing automobiles, petrochemicals, microchips and computers. 350,000 new engineers are added each year compared to only 85,000 in the U.S. Innovation is the top objective in China and productivity has averaged 17% in the last five years. The U.S. has a \$150 billion trade deficit with China. According to Napoleon 200 years ago, China is a sleeping giant. It appears also to be more sensitive to world opinion in the following ways: (1) China is helping to diffuse the nuclear crisis. (2) China appears to be moving away from a policy of selective abortions. (3) There is more religious freedom today. With the collapse of the Soviet Union, China has recognized the importance of improving its economy, and 60% of the goods it manufactures are in joint ventures plants. What is the United States to do? (1) We need to be competitive in the national/global economy and need awareness of the importance of manufacturing to our economy. (2)

We need to educate our children to work in the global economy. We suffer from a lack of skilled employees. (3) We need to engage the brains, instead of the backs, of workers and pursue productivity and innovative methods for improving output. Employees need to be engaged more in decision-making. Concerning the budgetary process in Kentucky, we need to think more strategically. Although there have been many negative things about China's past that could still come back to haunt them, China is still an economic threat to the U.S. and the question is whether China will dominate in this century like the U.S. did in the last.

This Week's Speaker...

The speaker for the day was Jake Colston, director of sports at the YMCA. His motto is "Everybody Plays, Everybody Wins." He spoke about the pros and cons of competitive versus non-competitive sports. The YMCA depends heavily on volunteers and sponsors which involves referees and coaches with over 500 volunteers involved. This helps the organization off-set costs like uniforms. Parents often do not want their child to be in a competitive environment. In non-competitive sports, there is no emphasis on winning and no one is a "loser." This enhances the enjoyment of playing, and everyone gets to play regardless of ability. The cons of non-competitive sports are that no standings are kept and that there is no win/loss record. The pros of competitive play are that the top teams show, standings are kept, and there is a win/loss record. The cons are that not everybody will play and the last place team will show. There is a loss of self-esteem and the fun is taken out in competitive sports. Winning becomes everything. Soccer is the biggest program at the YMCA with 600-plus kids, 100 volunteers, and 50 teams. It is offered in the fall and spring. 1600 kids involved is the goal. Another sport is NFL Flag Football, where the

kids wear uniforms of the NFL. It is for 6-14 year olds and has 90 players with 15 volunteers. Another sport is Tee-ball for 3-6 year olds with 350 players, 39 teams and 80 volunteers. Basketball has 31 teams, 315 players and 60 volunteers. Cheerleading is another sport with 7 squads, 70 cheerleaders and 14 volunteers. Finally, there is Rookies Sports which has been newly renovated with over 100 participants. It is for 3-6 year olds and is a six week program. It teaches motor development skills and the skills of different sports. There were 115-120 involved this spring to learn what sport may be their particular sport. Future sports teams will be volleyball, youth golf, tennis and adult basketball. He asked Rotarians for suggestions and ideas about future sports at the YMCA. He is trying to grow the YMCA to make it better for everyone with a new Motto: "A place to be, a place to belong, a place to become."

For the first time KSU has 15 students from Kangwon National University from Chuncheon, Korea, the city that gave us their Rotary Club banner this fall. They have been in Frankfort only a few days and are forming first impressions of our country. Individuals may be willing to sponsor one or more of these students to attend the International dinner. Three of these students are already covered. How many more can we bring? Richard Taylor has agreed to coordinate efforts to bring them. This is a great way to promote our goals of international peace and understanding among peoples of the world, welcome these students to the Frankfort community and to further demonstrate our commitment to the University and to education in general. Please contact Richard Taylor (223-5775) rtaylor@gwmail.kysu.edu or Sallie Lanham (695-4472) lanham@dcr.net if you are willing to sponsor a student on Feb. 10.

Next Week's Meeting...

**Bill Miller, Richard Taylor,
and Barry K. Holder**

February is designated by Rotary International as World Understanding Month. The main purpose of this theme is for Rotary Clubs to focus on international activities that help to create a better world by promoting international peace, cooperation and understanding.

To kick off this month's theme, the first meeting will be "An International Potpourri or Hodgepodge." PDG Bill Miller, program chair for February, will give a brief overview of World Understanding Month and highlight one or two of Rotary's major programs with the UN, especially Rotary Day at the UN, developed at the suggestion of the Frankfort Rotary Club.

PDG Barry K. Holder, co-chair of Rotary's World Affairs Committee, will update the members regarding the committee's work. The World Affairs Committee is concerned with all Rotary matters around the world, and in particular in North America. Recommendations are made from around the world as to the various programs Rotary should undertake, and are presented to the RI Board of Directors for their consideration.

The major presentations will be by Dr. Richard Taylor; Dr. Kwang Suh, Professor of Asian Affairs at KSU; and one of the South Korean students from Kangwon National University from Chuncheon, Korea. There are 15 students from South Korea studying for one semester at KSU. The Kangwon-KSU exchange is a unique program that is promoting closer educational and cultural ties between the participants and the universities.

Deepest Sympathy

The Club wishes to extend its sincere condolences to Dean and Kelli Sorg and their family in the passing of Dean's mother, Mary Sorg. Please keep the Sorgs in your thoughts and prayers.

This Week's Speaker...

Fellow Rotarian Dennis Van Horn gave a unique but thought-provoking talk about the first tenet of the Four-Way Test: "Is It the Truth?" He praised Judge Palmore as perhaps the best example in the Club of someone who exemplifies the best values in society. By contrast, he pointed to scandals in the state Senate, the Democratic Party leadership, Medicaid fraud, the Nixon administration, the War in Iraq, and corporate corruption as being inconsistent with the first principle of Rotary. Thank you Dennis for your inspiring talk, which was entirely consistent with that first principle.
