***Next Week's Program...***

Since June of 2013, **Craig Potts** has served as Executive Director of the Kentucky Heritage Council and State Historic Preservation Officer. Potts previously served as KHC's Site Protection program manager since 2009, responsible for a staff of six who oversee Section 106 Review of federally funded projects and the agency's professional archaeology component, which includes the Kentucky Archaeological Survey, a partnership between KHC and the University of Kentucky Department of Anthropology. As Executive Director, he oversees a staff of 20 whose responsibilities also include administering state and federal rehabilitation tax credit programs, the Kentucky Main Street Program, historic sites survey, the National Register of Historic Places, preservation planning, the Certified Local Government (CLG) Program, and staff support for the Kentucky African American, Kentucky Native American and Kentucky Military heritage commissions.

Potts was previously senior architectural historian, principal investigator and supervisor for Cultural Resource Analysts Inc. in Lexington, responsible for oversight of architectural history and historic preservation projects; and a principal, project manager and general contractor with Potts & Potts LLC, a historic property rehabilitation and management partnership. The firm was recognized on the Blue Grass Trust for Historic Preservation's "Positive Preservation in the Bluegrass" list of 25 outstanding projects in September 2007, for adaptive reuse of a circa-1850 building in Frankfort's downtown commercial historic district.

He earned a Bachelor of Arts degree in history from Wittenberg University; a Master of Arts in architectural history, and a Master of Fine Arts in historic preservation, from the Savannah College of Art and Design; and logged a wide range of practical experience in cultural resource evaluation and management prior to first joining KHC as environmental review coordinator from 2001-2004.

Potts lives in downtown Frankfort with his wife Amy and sons Sam and Simon, in an historic commercial building that he and his family recently rehabilitated.
