Amy holds a BBA in Accounting from Eastern Kentucky University and an MBA from Morehead State University. The Society for Human Resource Management also recognizes her as a Senior Certified Professional. As the CFO of a 100% Employee-Owned Company, Amy is one of three executive leaders driving the company's progress and fostering a shared ownership, collaboration, and success culture.

AE Electrical Solutions has served central Kentucky for over 50 years. Today, AE provides various electrical solutions, specializing in industrial, commercial, technology, engineering and automation, generators, and solar. The company's subsidiary, AE Excavating LLC, also provides a wide range of excavating services. With the recent opening of a second office in Richmond, AE wants to expand its geographic reach and service offerings.

AE is also dedicated to investing in the future of the electrical industry through its State Registered Apprenticeship Program and state-of-the-art technical center, AETC. Located here in Frankfort, AETC offers over 60 students each year a chance to receive quality education in the classroom while also receiving valuable on-the-job training. These opportunities guide them along the career path to becoming Licensed Electricians.
